Good Afternoon,

My name is Drew Greve and I am a doctoral candidate at The George Washington University. I am writing a dissertation examining the relationship between students' opportunities for physical activity and academic performance. Your 2010 study entitled *The Association of Health-Related Fitness With Indicators of Academic Performance in Texas Schools* is very relevant to my research. I was wondering if you would possibly allow me to reprint an adapted version of figure 3 (Fitness and Academic Achievement by School Rating) for my dissertation.

I am specifically examining the relationship between the opportunities for daily physical activity among third grade students in the Commonwealth of Virginia, and their performance on the reading portion of our state assessment, the Standards of Learning Exam.

I really appreciate your consideration in letting me reprint an adapted version of your table. Best of luck in your future endeavors.

Sincerely,
Drew Greve

Hi Andrew

Yes, I am happy to have you use an adapted version of this. Technically journals own the copyright but if you alter it in some ways by remaking it you can use it as you have planned. Thanks

Greg Welk

Good Morning Dr. Welk,
 Thank you!!! I will contact the journal directly and ask for permission. I wanted to check with you first.

I really appreciate your work!

Sincerely,
 Drew Greve

Good Morning,
 My name is Drew Greve and I am a doctoral candidate at The George Washington University. I am writing a dissertation examining the relationship between students' opportunities for physical activity and academic performance. There was a study published in your journal in 2010 by Gregory Welk, Allen Jackson, James Morrow, William Haskell, Marilu Meredith, and Kenneth Cooper, entitled *The Association of Health-Related Fitness With Indicators of Academic Performance in Texas Schools*. This article includes a table that is very relevant to my research. Dr. Gregory J. Welk granted permission for me to use the table (his reply is included below), but wanted to make sure that it was approved by your organization. I was wondering if you would possibly allow me to reprint an adapted version of figure 3 (*Fitness and Academic Achievement by School Rating*) for my dissertation.

I am specifically examining the relationship between the opportunities for daily physical activity among third grade students in the Commonwealth of Virginia, and their performance on the reading portion of our state assessment, the Standards of Learning Exam. I intend to give Dr. Welk and the other researchers, as well as your journal credit in my dissertation.

I really appreciate your consideration in letting me reprint an adapted version of this figure. It provides valuable information for my research.

Sincerely,
 Drew Greve
 Principal,
 Lee-Jackson Elementary School

Hi Drew,

Thanks for reaching out to check on permission. Absolutely, you have our gratis permission to reprint the figure in your dissertation. We do not need anything further, and this email will suffice as official permission. Please let me know if you need anything in the future. Thanks.
