Mr. James McIntyre
6020 North Bay Road
Miami, Florida

Dear Sir and Brother:

I received your letter this morning and I was indeed pleased at the report that you made concerning the work that you have been doing throughout the State of Florida. The results in this office show that you are doing a marvelous job, and the International Brotherhood of Teamsters sincerely appreciates the efforts that you and your associates have put forth in helping to organize the class of workers you refer to in your report.

You have not only done some good for the men themselves, but you have helped bring more sunshine and happiness in the homes of those unfortunate people who have been working for starvation wages during their entire lives.

I am of the opinion that the general executive board of the International Brotherhood of Teamsters may shift you from your present location up into the State of Georgia, with Atlanta as your headquarters. We have a man there now, but we are not fully satisfied with the results. This, of course, is not definite, and it will not be definite until such time as the general executive board has an opportunity of fully discussing the situation in the southern states relative to organizing the unorganized. Be assured that whatever is done, you will be given sufficient notice so that you can make preparations for your transfer.

Housing conditions are very bad through the State of Georgia, and especially in Atlanta, and that is one of the reasons that we may hesitate before making the change. As far as traveling is concerned, your expenses will be paid, and your furniture will be paid for its moving, provided that you are able to obtain a suitable home or a temporary home.

All this is contemplated now in the hope that you will give the entire situation your immediate consideration.

Mr. James McIntyre
