Dear Scott:

I am completing a dissertation at The George Washington University entitled "An Investigation of System of Systems Test and Evaluation: A Revelatory Case Study and A Preliminary Framework." I would like your permission to reprint in my dissertation excerpts from the following:

Ambler, S. [2005] "Agile Testing and Quality Strategies: Discipline Over Rhetoric", Ambysoft Web Site, retrieved from  
<http://www.ambysoft.com/essays/agileTesting.html#TestingDoingThis>

The excerpts to be reproduced are: The Serial System Development Life Cycle "V" Model diagram and the five short paragraphs noting your criticisms of that model. I will give all appropriate reference and credit to your original work within my dissertation.

The requested permission covers future revisions and editions of my dissertation and to the prospective publication of my dissertation as an electronic dissertation available through UMI, the Networked Digital Library of Theses and Dissertations, and The George Washington University. These rights will in no way limit republication of the material in any other form by you or others authorized by you. Your signing will verify that you own the copyright to the above material.

If this meets with your approval, please sign this letter below and return it to me. Thank you very much for your attention to this matter.

Sincerely,

Edwin P. McDermott

PERMISSION GRANTED FOR THE USE REQUESTED ABOVE:

  
Scott W. Ambler

Date: Jan 30, 2012
